**Email: - [kolliparamallikharjuna7095@gmail.com](mailto:kolliparamallikharjuna7095@gmail.com)**

**Mobile: - +91 7095287629**

### PROFILE & ACHIEVEMENTS

- Having 3.2 years of experience in Development, Implementation and Migration of Web Based Enterprise applications using Java on **Linux, Windows**.
- Java Programmer having 3.2 years of experience in developing web applications using **Java, Spring / Spring Boot, Hibernate JPA** frameworks.
- Expertise in java 8 features like **Streams, Functional Interfaces, Optional class, Lambda Functions, for Each, Method reference** and **Date/Time** APIs.
- Expertise in **Billing & Subscriber Management System (SMS)**.
- Expertise in developing Web based Distributed applications using **Java 8/11, Spring Boot, Spring**

#### **Core, Spring MVC, Spring Data JPA and Hibernate JPA.**

- Experience on build tools like **Maven and Gradle**.
- Basic knowledge in User management, Creating and managing user account, groups and access levels in Linux.
- Administering and monitoring System Performance, disk space and memory.
- Hands-on experience in distributed source control tools such as **GitHub**.
- Software designing and development, **Web/Database** connectivity.
- Experience in using logging with **Slf4J, Log4J**, and deploying builds to production.
- Experience with **Eclipse IDE and STS**.
- Strong Experience on **MYSQL** Database. Writing complex queries using **SQL**.
- Strong experience in working on **Tomcat** Application Server.
- Experience in **SDLC** models like **Agile** model.
- Experience in **JUnit and Mockito Frameworks**.
- Experience in using **Web Client** to perform Http requests.
- Strong **Analytical, Logical, Collaboration and Problem-solving** skills.

## TECHNICAL SKILLS

<b>Programming Languages</b>	:	Java
<b>Databases</b>	:	My SQL and Oracle
<b>Persistent Technologies</b>	:	JDBC, Hibernate, Spring Data JPA
<b>Integrated IDE's</b>	:	Eclipse, Spring Tool Suit
<b>Frameworks</b>	:	Spring, Spring Boot, Hibernate, Junit, Mockito
<b>Web Servers</b>	:	Tomcat
<b>Operating Systems</b>	:	Linux (UBUNTU 18.4), Windows (7,10)

## PROFESSIONAL EXPERIENCE

<b>Employer:</b>	LTIMindtree PVT Limited
<b>Project :</b>	LinkedIn Dash Migration
<b>Client :</b>	LinkedIn
<b>Role:</b>	Java Developer
<b>Duration:</b>	December 2021 to till now

Dash is a project to get voyager-api ready to support faster evolution of voyager clients. With the increasing size of voyager-api codebase, its monolithic monorepo structure has become a cause of concern. There is a wider initiative called multiverse that is intended to split the monorepo and create separate multiproducts for different pillars. That will allow the Voyager API codebase to become manageable and will many benefits e.g., simplified code, clear ownership boundaries, faster builds, higher developer productivity, independent deployments, etc.

### Responsibilities:

- Responsible for migrating functional modules from pre-dash to dash.
- Testing the migrated APIs by preparing curl in qprod server.
- Debugging and fixing issues during the migration.
- Writing test cases in different scenarios using Junit and Mockito frameworks.
- Tools used in Module GitHub, STS and Log4j.
- Managing the Git.
- Documentation of steps following in Dash migration.

- Involving in internal code reviews discussions for PR approval.
- Raising PR for sprint tasks and giving status updates to clients on weekly meetings.
- Addressing review comments given by team and clients.
- Referring confluence for more information about migration APIs.
- Giving KT to junior developers about migration and tools using in NGB.
- Migrating APIs that are raised as the tickets in Jira.

**Environment: Java, Spring Framework, Restful Web, Gradle, MYSQL, Tomcat, Git Hub and Eclipse IDE, AWS**

**Employer:** LTI Mindtree PVT Limited  
**Project:** In-digital  
**Client :** Bripl, Darpita  
**Role:** Java Developer, Database management  
**Duration:** May 2020 to November 2021

IN-Digital is digital based Application. IN-Digital is faster, lighter and cheaper to extend. A separate client and mobile app is developed on top of the platform. A customer life cycle can be managed by these client app. All these services are exposed through REST API extends soap Call (Incablenet) and role based authorization. Application uses Paytm payment gateway for all Online transactions.

**Responsibilities:**

- Responsible of developing new functional modules for the application.
- Developed the rest API implementing soap calls.
- Testing the application from end to end(manual).
- Debugging and fixing of live issues during the production.
- Data migration of plans and channels (TRAI).
- Supported front-end developer for developing the new screens.

- Implementing the rest calls using rest template.
- Tools used in Module postman, Log4j, Maven, MYSQL WORKBENCH.
- Managing the Git.
- Involved in preparing the Documentation.
- Participated in the technical code reviews, detailed time estimation and impact analysis and code review documents.

**Environment: Java, Spring Boot, Restful Web Services, MYSQL, Maven, Git Hub, AWS(Beanstalk).**

## **EDUCATION**

- Bachelor of Science from Krishnaveni Degree College, Vinukonda from July 2016 - March 2019.
- Intermediate in M.P.C from Andhra Pradesh Krishnaveni junior college, Vinukonda from June 2014 - July 2016.
- SSC from Ravindra High School, Vinukonda from June 2013 - March 2014.

## **WORK EXPERIENCE**

- . Working for **LTI Mindtree PVT Limited** from **May2020** to till date.

## **ADDRESS & CONTACT INFO**

- HNO – 1-262, RamalayamBazar, Vaddemgunta Village & Post, Bollapalli Mandal, Guntur District, Andhra Pradesh – 522657
